

## Last-Minute Moving Checklist for College Students

- Decide where you are moving, ideally somewhere:
  - You can afford
  - As close to campus as possible
  - Where you feel safe
  - Bring a government-issued ID and any other important financial info (like a bank statement)
- Select your move-in date.
- Choose your utility provider(s) and make sure your chosen electric company knows your move-in date.
- Buy cleaning products.
- Purchase packing materials like boxes, packing tape, marker to label boxes, bubble wrap for breakables.
- Organize your packing to easily find what you need, and don't forget your bedding, chargers and first aid.
- Schedule your moving day, and ask friends or family to help you out.
- Clean your new place.
- While you are packing and unpacking make a list of things that you will need to purchase.
- Make a couple trips to the store for supplies (because you never get everything in one trip).
